

IN THE SPECIFICATION

Please amend the specification as follows:

- 1) On page 1, please add the following above the Technical Field sub-section:

"Cross-Reference To Related Applications:

This application is a continuation-in-part of a prior application entitled "System And Method For Communicating Audio Data Signals Via An Audio Communications Medium" which was assigned Serial Number 10/462,243 and filed June 16, 2003."

- 2) On page 9, please amend the Description of the Drawings section as follows:

FIG. 2 is a flow chart diagramming an exemplary process for implementing one embodiment of the present discovery technique using IR signals.

FIG. 3 is a diagram illustrating one embodiment of the communication links between endpoint components and a computing device in a DM setting using the IR-based discovery process of Fig. 2.

FIG. 34 is a flow chart diagramming an exemplary process for implementing another embodiment of the present discovery technique using audio signals.

FIG. 5 is a diagram illustrating one embodiment of the communication links between an endpoint component and a computing device in a DM setting using the audio-based discovery process of Fig. 4.

FIG. [[4]]6 is a flow chart diagramming an exemplary process for implementing yet another embodiment of the present discovery technique using either IR or audio signals.
